8a+ Sicav – Eiger

8a+ Sicav – Eiger, a Sub-Fund of 8a+ Sicav, Class R (ISIN: LU0715610621)

Sicav harmonized with the Directive 2009/65/EC.
Management Company: 8a+ Investimenti SGR S.p.A.

Objectives and Investment Policy

Objectives and Investment Policy

This Sub-Fund aims to provide capital appreciation over the medium/long term by generating higher returns than those provided by the EuroStoxx 50 Total Return Index (*Bloomberg ticker: SX5T Index*). The Sub-Fund invests in a concentrated portfolio of stocks (typically 15-20) issued by main European companies. Given the active management style, based on a bottom-up approach built on fundamental and momentum analysis, as well as on technical analysis, the equity portfolio turnover rate can be high. Such cost is financed by the Sub-Fund's assets.

Main categories of financial instruments

The Sub-Fund's assets are mainly invested (on average around 90/95%) in equity financial instruments.

The financial leverage (calculated using the commitment approach) will be indicatively close to unity.

Redemption of shares

Investors may request to redeem their units every bank business day in Luxembourg.

Reference Markets

The Sub-Fund invests mainly in Euro-Area markets and marginally (less than 10% on average during the last 3 years) in different markets.

Benchmark

100% EURO STOXX 50 Total Return.

The Sub-Fund is managed with an active approach (it does not passively replicate the benchmark's composition) as it may invest in instruments which are not included in the index or are included to different extents.

Degree of discretion compared to its benchmark: high.

Income

The income in respect of an accumulation share class is not distributed but is retained in the Sub-Fund.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years of investment.

Risk and Reward Profile

More about this rating

The Sub-Fund, which is subject to a degree of risk connected to typical equity market risks (as they may be subject to large oscillations in value), has been rated within category 6, as the volatility of its weekly performance during the last 5 years has been equal or higher than 15% but lower than 25%.

Past data used in calculating the SRR1 may not be a reliable indication of the future risk profile of the Sub-Fund. The rating is not guaranteed to remain unchanged and may be subject to shift over time. The lowest rating does not mean risk-free investment.

Risks of great importance not adequately included in the synthetic indicator

No Capital Guarantee exists for this product so investors can lose the whole of their investment.

Operational risk: the Sub-Fund is subject to the risk of malfunction due to human error, inefficiencies in processes and systems or external events. These risks are constantly monitored by the 8a+ Investimenti SGR.
